# Dulux Construction Solutions

Dulux partners with architects, interior designers, builders and engineers to deliver first-class construction outcomes. Our respected range of premium products and unmatched technical expertise allows us to provide end-to-end support to the design and construction sector.

Dulux Construction Solutions helps you design and build with confidence. Created to provide specifiers with the

tools, information and guidance they need to realise their projects' potential, it lets you access all Dulux product solutions in one convenient place.

Dulux Construction Solutions is your one-stop-shop for sourcing technical advice, physical swatches and samples, and assistance with product specification or problem solving. Work with us to find the best solution for your project and achieve exceptional results.

## Warehouse/Industrial

The warehousing and industrial sector needs tough, functional and durable products and systems to provide hard-wearing protection.

Warehouses include public and private spaces, smart warehouses, consolidated warehouses, cooperative warehouses and distribution centres. They're generally large, open plan buildings used to move and store products and materials efficiently, safely and securely.

A vital part of the growing supply chain infrastructure, warehouses are used by manufacturers, importers, exporters,

wholesalers, transport business and more. Industrial properties are in high demand due to the strong growth of the e-commerce sector.

Unique sector challenges include the need to protect a variety of large surfaces such as tilt slab walls, metal structures and expansive concrete floors.

## Our Solutions

Dulux has been providing products and solutions for specifiers and contractors in the construction industry across Australia and New Zealand for over 100 years.

Dulux products are designed to meet the highest quality standards. Our team's extensive knowledge and industrial sector experience allow us to provide valued support with specification writing and problem-solving.

---

### Waterproof solutions

Professional waterproofing solutions are needed to protect stored goods, meet building code requirements and provide building longevity.

---

---

### Metal corrosion protection

Internal and external structural and decorative steel requires high-performance solutions that protect against the environment, including intumescent coatings where fire protection is needed.

---

---

### Durable concrete coatings

Warehouse concrete floors are regularly exposed to hot tyres, abrasion and chemicals, meaning highly durable coatings are essential.

---

---

### Performance in high-traffic areas

Continual use by workers, forklifts, trucks and other vehicles and equipment means warehouse surfaces must be protected with strong and resistant systems. These spaces call for hard-wearing coatings that will withstand regular cleaning and minimise the need for regular repainting or recoating.

---

---

## Secure and reliable access systems

With high-value products, raw materials and machinery kept within warehouses, they must be secured with practical and reliable access control systems.

---

# Example Areas and Products

# Our Brands

Dulux brands have been trusted for generations.

## Dulux Interior and Exterior Paints

From Wash&Wear® to Professional SteriGuard®, our high-performance paints and coatings are tailored to meet the New Zealand market's unique needs. Dulux paints offer standout results across an extensive range of more than 1000 colours from the Dulux Colours of New Zealand range.

## Dulux Powder Coatings

Dulux offers a wide range of premium powder coatings in Australia and New Zealand. Its extensive range of standard and custom architectural coating solutions are backed by extensive testing that ensures exceptional product performance and durability.

## Dulux Protective Coatings

Dulux Protective Coatings offer high-performance protection for metal and concrete assets including buildings, infrastructure, facilities, plant and equipment. Our tailor-made coatings and maintenance systems ensure your assets are effectively protected, even in the most demanding conditions.

## Dulux Avista Concrete Coatings

Dulux Avista offers professional decorative concrete solutions for new and existing concrete areas. Suitable for indoor and outdoor applications, our decorative surface products add colour, texture and patterns to driveways and concrete spaces in commercial projects.

## Dulux Acratex Coatings and Cladding

Dulux Acratex provides high-build facade coating systems for residential and commercial projects. Designed with the New Zealand built environment in mind, Dulux Acratex render coatings and external cladding solutions add style, protection and durability to diverse construction and maintenance projects.

## Specialized Construction Products

As a New Zealand-based manufacturer, Specialized has a clear understanding of the demands of tomorrow's buildings and the diverse weather conditions our buildings face. The cladding and plastering products that have been designed and developed, including several BRANZ appraised systems, provide the very best in cavity-based building envelope solutions for New Zealand conditions.

## Fosroc Construction Solutions

Fosroc delivers world-class solutions for a broad range of above or below ground construction and maintenance projects including waterproofing, concrete repair, grouts, sealants, protective coatings and industrial flooring.

### Porter's Decorative Finishes

Porter's decorative finishes combine the latest technology with traditional methods and the finest raw materials to provide a superior finish. From modern paints to lime and cement-based products and reactive metallic finishes, our proprietary tinting system creates beautifully rich and unique colours.

### Dryden Wood Oil Solutions

Dryden provides a range of premium wood oil solutions for timber. There is also a comprehensive range of specialist cleaning and coating products for a variety of applications.

### Intergrain Timber Finishes

Intergrain's High Performance Timber Finishes include a range of premium stains, oils, clear finishes and flooring clears, which are easy to apply and deliver a professional finish that preserves, protects and enhances timbers natural beauty.

### Dominator Garage Door Systems

The Dominator brand has pioneered a new standard in commercial and residential garage door systems. This standard is proudly represented in the latest range of Dominator garage doors and automatic openers. From the revolutionary Dominator automatic openers, through to the vast and ever-increasing range of garage doors, Dominator can provide the styling, security and reliable performance that all residential and commercial property owners need.

### Garador Garage Door Systems

Garador provides a wide range of garage door styles, colours and finishes for customers to select from - all smart, stylish & secure. Since 1962, Garador has been in the business of residential and commercial garage doors. With the biggest nationwide Dealer network and a dedicated transport fleet, Garador covers New Zealand and back up products with expert, reliable service that continues to stand the test of time.

### Admil Sealants and Adhesives

Admil has a range of sealants and adhesives for the construction market including 100% silicone sealants, industrial grade sealants, polyurethanes and construction sealants.

### Selleys Adhesives, Sealants and Fillers

Selleys has a specialised product range of market leading products for the trade. With a breadth of clever solutions in sealants, adhesives, fillers, paint preparation and application, household cleaning, and automotive care products. Selleys always strives to prove its slogan true, "If it's Selleys, it works."
