Dulux Construction Solutions

Dulux partners with architects, interior designers, builders and engineers to deliver first-class construction outcomes. Our respected range of premium products and unmatched technical expertise allows us to provide end-to-end support to the design and construction sector.

Dulux Construction Solutions helps you design and build with confidence. Created to provide specifiers with the

tools, information and guidance they need to realise their projects' potential, it lets you access all Dulux product solutions in one convenient place.

Dulux Construction Solutions is your one-stop-shop for sourcing technical advice, physical swatches and samples, and assistance with product specification or problem solving. Work with us to find the best solution for your project and achieve exceptional results.

Education

Educational facilities need hard-wearing and colourful coating solutions that provide durability in high-traffic areas and create inspiring places for students to learn.

Education development includes a variety of diverse spaces: schools, kindergartens and childcare facilities, universities campuses, laboratories and training rooms, libraries, classrooms, public areas, amenities, and staff and student accommodation.

At Dulux, we partner with education providers to support their construction needs, including development, refurbishment and upgrade projects. Our understanding of the sector's unique requirements and our extensive range of performance coating systems allow us to provide a complete specification support package.

Our Solutions

Dulux has supported specifiers and contractors in the education industry across Australia and New Zealand for over 100 years. Our solutions – including tilt slab walls, metal structures, vibrant paint colours and more – are used for various education construction and maintenance projects.

Dulux products are designed to meet the highest quality standards. Our team's extensive knowledge and sector experience allow them to provide valued support with specification writing and problem-solving.

Reliable Protection

As educational facilities function throughout the year, long-lasting products and solutions are essential to reduce maintenance disruptions, minimise cracking caused by movement and withstand harsh weather conditions.

Sustainable solutions

Dulux has a long history of continuous improvement in sustainability impacts - from championing industry-leading safety performance and eliminating hazardous substances to driving significant reductions in waste to landfill and contributing to our local communities.

- Environmental Choice Licensed Products
 - GreenTag™ certified products
 - Low VOC Paints
 - World-class manufacturing
 - Environmental product declaration
 - Paint Take-Back Service
-

The Role of Colour

Colour plays an integral role within the education sector – adding aesthetic appeal while influencing thinking and feelings. Colour schemes can leverage colour psychology to inspire creativity, and colour can be used to support wayfinding and delineate different areas.

Indoor Air Quality

The Dulux range includes several low VOC, low odour options for when air quality is an important specification requirement.

Special purpose paints and coatings

Educational facilities have sector-specific needs, including chalkboard paint, whiteboard paint, acoustic ceiling paint and anti-graffiti products.

Durable floor and wall coatings

Educational facilities need durable products that can withstand high foot traffic and rigorous regular cleaning. Walls and floors are subject to frequent knocks, scrapes and scuffs, calling for hard-wearing coatings that are washable and easy to maintain, and minimise the need for regular repainting or recoating.

Safety and regulatory requirements may also mandate the use of specialist products, including non-slip finishes.

Example Areas and Products

Walls, Ceiling, Trim

New Zealand's leading range of high performance interior and exterior paints and decorative finishes.

Dulux is the home of the popular Colours of New Zealand paint range. The Dulux Colours of New Zealand, featuring over 1000 colours, is inspired by the natural beauty that radiates right across this beautiful land of ours.

Our Brands

Dulux brands have been trusted for generations.

Dulux Interior and Exterior Paints

From Wash&Wear® to Professional SteriGuard®, our high-performance paints and coatings are tailored to meet the New Zealand market's unique needs. Dulux paints offer standout results across an extensive range of more than 1000 colours from the Dulux Colours of New Zealand range.

Dulux Powder Coatings

Dulux offers a wide range of premium powder coatings in Australia and New Zealand. Its extensive range of standard and custom architectural coating solutions are backed by extensive testing that ensures exceptional product performance and durability.

Dulux Protective Coatings

Dulux Protective Coatings offer high-performance protection for metal and concrete assets including buildings, infrastructure, facilities, plant and equipment. Our tailor-made coatings and maintenance systems ensure your assets are effectively protected, even in the most demanding conditions.

Dulux Avista Concrete Coatings

Dulux Avista offers professional decorative concrete solutions for new and existing concrete areas. Suitable for indoor and outdoor applications, our decorative surface products add colour, texture and patterns to driveways and concrete spaces in commercial projects.

Dulux Acratex Coatings and Cladding

Dulux Acratex provides high-build facade coating systems for residential and commercial projects. Designed with the New Zealand built environment in mind, Dulux Acratex render coatings and external cladding solutions add style, protection and durability to diverse construction and maintenance projects.

Specialized Construction Products

As a New Zealand-based manufacturer, Specialized has a clear understanding of the demands of tomorrow's buildings and the diverse weather conditions our buildings face. The cladding and plastering products that have been designed and developed, including several BRANZ appraised systems, provide the very best in cavity-based building envelope solutions for New Zealand conditions.

Fosroc Construction Solutions

Fosroc delivers world-class solutions for a broad range of above or below ground construction and maintenance projects including waterproofing, concrete repair, grouts, sealants, protective coatings and industrial flooring.

Porter's Decorative Finishes

Porter's decorative finishes combine the latest technology with traditional methods and the finest raw materials to provide a superior finish. From modern paints to lime and cement-based products and reactive metallic finishes, our proprietary tinting system creates beautifully rich and unique colours.

Dryden Wood Oil Solutions

Dryden provides a range of premium wood oil solutions for timber. There is also a comprehensive range of specialist cleaning and coating products for a variety of applications.

Intergrain Timber Finishes

Intergrain's High Performance Timber Finishes include a range of premium stains, oils, clear finishes and flooring clears, which are easy to apply and deliver a professional finish that preserves, protects and enhances timbers natural beauty.

Dominator Garage Door Systems

The Dominator brand has pioneered a new standard in commercial and residential garage door systems. This standard is proudly represented in the latest range of Dominator garage doors and automatic openers. From the revolutionary Dominator automatic openers, through to the vast and ever-increasing range of garage doors, Dominator can provide the styling, security and reliable performance that all residential and commercial property owners need.

Garador Garage Door Systems

Garador provides a wide range of garage door styles, colours and finishes for customers to select from - all smart, stylish & secure. Since 1962, Garador has been in the business of residential and commercial garage doors. With the biggest nationwide Dealer network and a dedicated transport fleet, Garador covers New Zealand and back up products with expert, reliable service that continues to stand the test of time.

Admil Sealants and Adhesives

Admil has a range of sealants and adhesives for the construction market including 100% silicone sealants, industrial grade sealants, polyurethanes and construction sealants.

Selleys Adhesives, Sealants and Fillers

Selleys has a specialised product range of market leading products for the trade. With a breadth of clever solutions in sealants, adhesives, fillers, paint preparation and application, household cleaning, and automotive care products. Selleys always strives to prove its slogan true, "If it's Selleys, it works."
